

Quidel to Present at 31st Annual J.P. Morgan Healthcare Conference

January 2, 2013

Jan 02, 2013 (Marketwire via COMTEX) -- Quidel Corporation (NASDAQ: QDEL), a leading provider of rapid diagnostic testing solutions and cellular-based virology assays, announced today that it will present at the 31st Annual J.P. Morgan Healthcare Conference to be held at The Westin St. Francis hotel in San Francisco, California on Wednesday, January 9, 2013.

Douglas Bryant, president and chief executive officer, and Randy Steward, chief financial officer, will present that day at 10:30 a.m. Eastern time (7:30 a.m. Pacific time) with a question and answer session scheduled immediately following the presentation. During the presentation, the company will discuss business and financial developments and trends. The company's statements may contain or constitute material information that has not been previously disclosed.

A live webcast and audio archive of the presentation will be available via the Investor Relations section of the company's Web site at www.quidel.com. Participants should allow approximately five to ten minutes prior to the presentation's start time to visit the site and download any streaming media software needed to listen to the Internet webcast. A replay of the webcast will also be available on the company's Web site for 14 days.

About Quidel Corporation

Quidel Corporation serves to enhance the health and well being of people around the globe through the development of diagnostic solutions that can lead to improved patient outcomes and provide economic benefits to the healthcare system. Marketed under the QuickVue®, D3® Direct Detection and Thyretain® leading brand names, as well as under the new Sofia® and AmpliVue® brands, Quidel's products aid in the detection and diagnosis of many critical diseases and conditions, including, among others, [influenza](#), [respiratory syncytial virus](#), Strep A, herpes, pregnancy, [thyroid disease](#) and [fecal occult blood](#). Quidel's research and development engine is also developing a continuum of diagnostic solutions from advanced lateral-flow and direct fluorescent antibody to molecular diagnostic tests to further improve the quality of healthcare in physicians' offices and hospital and reference laboratories.
